

「外来の付き添い」、「入院中の面会」、「分娩立ち合い」について

Necessary measures to protect outpatients, hospitalized patients, pregnant women and babies against infectious diseases and accidents.

We ask for your active understanding and cooperation.

<About "attendant of outpatient", "visit to hospitalized patient", and "attendant at delivery">

On May 8, 2023, the new coronavirus infectious disease is classified as the 5th category in the Japanese Infectious Disease Law, and the rules regarding "attendant of outpatient", "visit to hospitalized patient", and "attendant at delivery" at our clinic are changed. The rules may be changed without notice depending on the spread of various infectious diseases including the new coronavirus infection in future. In order to prevent infectious diseases and security measures, we have established some rules as follows regarding "attendant of outpatient", "visit to hospitalized patient", and "attendant at delivery". We kindly ask all of our family members and others to abide by the rules. If we discover any violations, we will take strict measures such as prohibiting future visits to the clinic.

[Common rules for visitation during attendant of outpatient, visit to hospitalized patient hospitalization, and attendant at delivery]

- Wear a mask in the clinic.
- Only family members including common-law relationship is possible, except when requested by our clinic.
- No symptoms such as fever or cough (excluding those not due to infectious diseases such as allergic rhinitis).
- In the past week, there is no contact with patients with COVID-19 or seasonal / new influenza, or with infectious diseases stipulated in the Japanese Infectious Diseases Law.
- Follow the instructions of our clinic staff.

[Regarding accompanying family members]

- No more than one accompanying adult.
- Please refrain from coming to the doctor with children as much as possible. If this is not possible, please be careful not to cause discomfort to other patients.
- An accompanying adult shall not wait in the outpatient waiting room. Please think of your children in the same way.
- Patients with only children should wait in the waiting room with their children.
- An accompanying adult has to leave the clinic as soon as the examination is over.

[Regarding visitation during hospitalization]

- ・Please fill in the visitation reception book and submit the health declaration form.
- ・Except for special timing such as before and after childbirth or when requested by our clinic, visits are limited to visiting hours.
- ・Visitors are limited to one family adult only and once a day. Please confirm the visiting hours when you are admitted to the hospital.
- ・Your children cannot visit the clinic. ·
- ・Please refrain from staying in shared spaces such as corridors and halls.
- ・Newborns will be seen through the glass in front of the neonatal room.
- ・Visitors should refrain from eating and drinking in the clinic.

[About attending childbirth]

- ・There is only one person who attends the delivery, and the spouse (including the partner) or an adult female member of the family (mother, sister, etc.).
- Minimize going into or out of the clinic.
- ・Your children are not able to attend the childbirth and to wait in the hospital room.
- ・At the start of the delivery, you will be required to submit a declaration and written pledge as a attendance of childbirth.
- ・In some cases, depending on the contents of the birth witness report and pledge, we may not be able to approve the birth attendance.
